The Equity Difference

Equity is a ready-to-use spray restorer designed to deep clean floor finishes by lifting embedded soils to the surface for removal by the floor pad. **Equity's** deep cleaning system removes black heel marks, tar, scuffs, etc. without being aggressive to floor finishes.

Equity's special blend of acrylic, urethane and polyethylene builds gloss, repairs surface damage and leaves behind a hard, protective coating that improves durability and provides a slip-resistant surface. **Equity's** tough coating may be easily stripped or coated over with fresh floor finish.

DIRECTIONS FOR USE

PREPARATION:

1. Use a scraper or putty knife to remove all gum, tape, etc. stuck to the floor.
2. Dust mop the entire floor area.
3. Damp mop or autoscrub the entire floor to remove excess dirt.

APPLICATION:

1. Fill **Equity Grip & Go!**® spray bottle.
2. Spray a fine even mist over a small area (approximately 25 square feet). For best results, do not over-spray.
3. Buff or burnish area until desired gloss is achieved.
4. For best results, use pads designed specifically for spray buffing. Always use clean pads.
